Such Pretty Waves and

Curls-In Three Hours!

Have you tried liquid silmerine? If unot, by all means do so. Within three hours you can have just the lovellest curls and waves! They will appear so perfectly natural and you will be surprised how long they will last. When the hair is combed out it will be beautifully fluffy.

Silmerine should be applied with a clean tooth brush before doing up the hair. It may be used before retiring, if preferred. A few ounces of the liquid from your druggist will last many weeks. This will also be found to be a splendid dressing, keeping the hair soft and glossy. It is entirely harmless, of course, and is neither sticky nor greasy.
